

2007 Preliminary SAT/National Merit Scholarship Information

WAY TO GO!!!!

Two students from All Saints who took the 2007 Preliminary SAT/National Merit Scholarship Qualifying Test (PSAT/NMSQT) met the requirements to enter the 2008 National Merit Scholarship Program. Both of these students are among the 50,000 highest-scoring participants of some 1.4 million college-bound Juniors who took the PSAT in October 2006. In September 2007, of the more than 50,000 students being offered this service, about 16,000 will be named National Merit Program Semifinalists, representing the top scores in each state, and approximately 34,000 other scores will be named Commended Scholars. Finalists will be named in February 2008 and have an opportunity to compete for 8,200 Merit Scholarships.

Congratulations to **Nathan Graham** and **Isaiah Schulze**

Of the last five graduating classes, 26 students have been named Commended Scholars or better. All Saints has produced the most scholars in East Texas.
