

FROM UPPER SCHOOL ADMINISTRATION

a letter

Dear Parents of Eighth Graders,

As a faculty, we feel communication with you is essential for providing an effective and challenging educational environment. This evening's program is designed to help familiarize you with the Upper School faculty, the curriculum, athletic opportunities, and the facilities.

A listing of the current Upper School faculty is enclosed. We are extremely proud to lead such a dedicated, caring and experienced group of professionals. Collectively, their average teaching experience is an impressive 19 years.

You will also find information regarding the ninth grade curriculum for core courses as well as electives. Course scope and sequence have been provided along with other helpful information. Our college advising program has also been highlighted for you.

As students enter the Upper School, they will experience more opportunities in the curricular and extracurricular areas. As a result, they must be more selective in their choices. This means prioritizing. As administrators and faculty, we are always available to help students balance academic expectations with outside activities.

It is our sincere hope that we will have an opportunity to serve you and your child in the Upper School next year. We will do all we can to make the transition from Middle School to Upper School as seamless as possible. We look forward to working with you.

Sincerely,

Kyle Edgemon
Head of Upper School

Trang Vuong
Director of Academic
& College Counseling

Jason Burgess
Dean of Students
